

# ENDURA BRAID

Core  
HMPE

Cover  
Polyester

White

Black

**Endura Braid** provides optimal performance, strength, and durability. Featuring a specially engineered 12-strand HMPE coated core with a 24-carrier braided polyester cover which protects against UV deterioration, wear, and heat. Good knot tying ability and very low stretch.

## Applications

- Winch lines
- Replacement for steel cable

| Diameter |        | Circumference | Weight |            | min. Breaking Strength | avg. Breaking Strength |
|----------|--------|---------------|--------|------------|------------------------|------------------------|
| [mm]     | [inch] | [inch]        | [g/m]  | [lbs/100'] |                        |                        |
| 16       | 5/8    | 2             | 175.6  | 11.8       | 27,000                 | 29,000                 |
